

**NEWS RELEASE**  
**July 23, 2014**

**Valerie Street Closure - Alvin Avenue  
Concrete Improvement Project**

Beginning Thursday, July 24<sup>th</sup>, JJ Fisher Construction, under contract with the City of Santa Maria, will close Valerie Street at Alvin Avenue in order to replace the concrete cross-gutter which crosses Valerie Street at the intersection. It is anticipated that the street will be closed for seven days to complete the work and allow the concrete to become strong enough carry traffic loading. During this time, traffic will be detoured around the work zone.

The driving public may experience delays due to roadway lane closures during construction. The City strongly recommends that drivers obey all temporary construction traffic control signs and flagmen, and use alternate routes whenever possible to avoid delays in travel time.

Questions may be directed to the Department of Public Works, 925-0951 ext. 225.
