Web-based Survey Seeking User Input on Public Library Services

On behalf of public libraries, the County of Santa Barbara is soliciting public input in its effort to develop planning strategies to ensure that public libraries in the County are meeting the needs and expectations of their users. The survey asks the public to indicate their service preferences in order to assist libraries with their planning goals and objectives.

A brief survey, in both English and Spanish language versions, is available via a link on the homepage of the City of Santa Maria website at <http://www.ci.santa-maria.ca.us/home.shtml>, and enables users to express their feelings about the library services that are important to them and their families. It will be available online through Saturday, February 9.

LIBRARY SURVEY

BIBLIOTECA ENCUESTA

Paper copies of the survey are also available at the Santa Maria Public Library Main facility, as well as the branches in Guadalupe, Orcutt and Cuyama.

The participation of the public is crucial to the success of this undertaking, which will have significant impact upon how public library services are structured and delivered in the future.

Questions may be directed to the Santa Maria Public Library, 925-0951 ext. 322.
