South Broadway Water Main Repair

On Tuesday, September 17, beginning at 9:00 a.m., the City of Santa Maria Utilities Department's Water Resources Division personnel will begin exploratory work to identify the cause of a water leak. The work will occur in the 400 block of South Broadway (State Highway 135), in front of City Hall. Work is expected to continue throughout the day and will involve temporary lane closures and partial obstruction of the sidewalk in that area.

The purpose of the work is to identify and repair the cause of a water leak.

For more information or questions regarding this repair work, please call the Utilities Department Office, 925-0951 ext. 7270.
