Stowell Road Repairs

Sectional repairs on Stowell Road will begin on Monday, December 2nd, by CalPortland Construction, under contract with the City of Santa Maria.

The work includes pulverizing the existing roadway surface, grading, compaction, and the installation of a new asphalt surface.

During the work, traffic on Stowell Road will be reduced to one lane in each direction. The first section of work on Stowell Road is between College Drive and Miller Street. This section is anticipated to be complete within two days. Work will then proceed to Stowell Road between Depot Street and Blosser Road. Again, traffic will be reduced to one lane in each direction in order to provide a safe path of travel around the work zone.

The funding source is from Gas Tax, Measure A, and State and Local Partnership (SLPP) funds.

The driving public may experience delays due to roadway lane closures during construction. The City staff strongly recommends that drivers obey all temporary construction traffic control signs and flagmen, and use alternate routes whenever possible to avoid delays in travel time.

Questions may be directed to the Department of Public Works, 925-0951 ext. 225.
